

KAWARU™ TYPEFACE

VARIABLE FONT

Kawaru™ is a sans serif typeface with special fluidity and striking visual impact. It was designed bearing in mind its use for bold titles in websites and strong digital statements. Featuring only uppercase characters, it includes several alternative characters as well as numerals, diacritics for Western European languages and some punctuation for you to play with.

Kawaru™ is a variable font that allows you to play with the character width for a condensed version and also get a cool glitch effect. Enjoy it!

TYPE MASTER

Brígida Guerreiro is a portuguese graphic designer but only for a small part of the day. Mostly, she is a typography geek who masters the art of drawing letters and breathes inspiration from all around.
